Dear Ms Wallsgrove,

Maurice JohnKIRK A7306AT

Its seems that you are surrounded by less than honest staff. Some, of course are caring but many are bullying and proceed against regulations.

A) Denial of prescribed medicine...Omeprazole. Maurice has Barretts Syndrome (a torn/damaged diaphragm/oesophagus). He should have Omeprazole each time he eats to relieve gut pain. ILLEGAL

B) He is bedridden so food should be brought to his cell. He has been denied any food many many times ILLEGAL

C) His hip was damaged early July by the action of staff but despite pain it was never investigated. As a veterinary surgeon he knows that his hip replacement had been damaged and needs an x-ray at the very least. A dressing applied twice two weeks apart was totally insufficient. No analgesics given.

D) He has filled various DIRV forms but none have reached their required destination. ILLEGAL

E) He has applied to attend chapel via the computer.....Denied

F) His Judicial review forms are routinely denied posting. ILLEGAL

G) His post is regularly disgarded in a heap in the wing office despite stamps adhered. ILLEGAL

I am sending this letter to various people to advertise the paucity of prison. I know you are coping with too many prisoners and not enough trained staff (beyond basic induction) but surely an intelligent 74 year old does not deserve to die in your prison for lack of proper rules being followed.

I do not want to hear that my brother has died from lack of qualified attention.

Yours sincerely
